**OUR
FOCUS**

- Ensure that tax processes and assessments are accomplished, considering the characteristics and goals of our clients' businesses.
- Guarantee the tax function as a fundamental dimension in the definition of business strategy and formatting, and also in the main decision-making processes.
- Promote companies relationship, with the taxing entities and other regulatory bodies, regarding the tax aspects, aiming to allow the increasing contribution in the tax environment definition and to strengthen a long-term relationship.
- Ensure that all initiatives taken by the tax authorities and other regulatory bodies, in relation to tax aspects, which give rise to administrative tax procedures are evaluated in a timely manner by our clients.
- Ensure that tax assessments include, whenever possible, the associated economic impacts quantification.

We are a company formed by professionals, originally from the oil and gas industry, with 20 years of expertise in refunding tax credits and ICMS refund, credit balance reduction and technical action in accounting and tax expertise.
